Le nouveau tome du *LIMC*, le tome VII qui paraît en cette fin d'année 1994, comporte une richesse d'illustrations encore plus considérable que les précédents (750 planches, 4353 photographies, 191 dessins dans le texte). D'une part les représentations d'ensemble sont de plus en plus nombreuses, mais on a aussi multiplié la figuration de détails précis. Le nombre de renvois aux volumes précédents ne cesse d'augmenter; il est indispensable et évite les répétitions, permettant ainsi de donner davantage d'inédits et ceci grâce à la collaboration internationale généreuse des directeurs et conservateurs de musées, des épheures et surintendants, des collectionneurs et collègues auxquels nous tenons cette fois encore à exprimer notre reconnaissance.

Celle-ci est d'autant plus grande que la richesse de l'illustration a, une fois de plus, bénéficié de la compétence de nombreux collègues qui, en même temps que les photographies, ont communiqué renseignements et autorisations de publications, souvent à un prix réduit ou gratuitement.

Ainsi la communauté scientifique et la Grèce en particulier ont, pour ce volume encore, un droit spécial à notre vive gratitude.

La publication du *LIMC* approche de sa fin: Le volume VIII, qui comporte la fin de l'alphabet et des suppléments, est en bonne voie et un volume d'indices est prévu pour clôturer l'entreprise.
